INDEX TO 1943 EDISON ELECTRIC INSTITUTE BULLETIN

Volume 11

Issue	*Pages*	*Issue*	*Pages*
January	1- 32	July	189-224
February	33- 64	August	225-256
March	65- 92	September	257-288
April	93-124	October	289-320
May	125-156	November	321-352
June	157-188	December	353-384

General Index

A

Accident Prevention
- Accident Prevention Committee Holds Winter Meeting—George S. Diehl, 83
- Accident Prevention in the Philadelphia Electric Company—Roy M. Godwin, 313
- Charting the Course in Accident Prevention—W. T. Rogers, 33
- Essential Accident Prevention Measures in the Design and Maintenance of Substations—H. S. Fitch, 327
- Experience Points the Way in Accident Prevention—D. C. Stewart, 137
- Fatal Accidents a Challenge to the Industry—D. C. Stewart, 367
- Reducing Accidents—W. F. Nimmo, 217
- The Rubber Situation as It Affects Protective Devices for Linemen—T. R. Claffy, 326
- Safety Merit Award Inaugurated, 139
- Seven More Companies Win EEI Safety Merit Award, 312
- Suggestions for Air Raid Wardens, 82

Accident Prevention Committee
- Chicago meeting, 185, 343
- Cincinnati meeting, 83
- Personnel 1943-1944, 283

Accident Prevention in the Philadelphia Electric Company—Roy M. Godwin, 313

Accountants to Meet in Cincinnati, 120

Accounting Procedures Relating to War Facilities Covered by Necessity Certificates—R. B. Carpenter, 141

Accounting Executive Committee
- Personnel 1943-1944, 280

Advertising
- How Should We Advertise in 1943?—Kenneth L. Ede, 69

Air Raids
- Suggestions for Air Raid Wardens, 82

Allocating Gross Revenue to Production, Transmission and Distribution Facilities—Norman F. Brown, 57

Adequate Wiring for Post-War Farm Electrification—H. J. Gallagher, 309

Aims and Aspirations of N.A.M.—Noel Sargent, 207

An Industry Speaks Up!—292

Annual Meeting of the Institute, 125

Application Engineering—A Key to Farm Production!—George W. Kable, 269

Appliances, Electric
- Better Care—Less Repair—C. E. Greenwood, 365
- Domestic Electric Service in 1942—W. M. Carpenter, 75

"As Our Territory Prospers So Shall We"—Roy W. Godley, 119

ASA Standards for Graphical Symbols, 226

Awards, Resuscitation
- Twenty-four Edison Electric Institute Awards for Resuscitation Made in 1942—Mae B. Woods, 52
- More Edison Medal Awards for Resuscitation—Mae B. Woods, 85

B

Better Care—Less Repair—C. E. Greenwood, 365

Blackouts
- Tripping Device on Time Switch for Blackouts, 14

C

Canadian Electrical Association Convention, 223

The Case for Bimonthly Billing—R. B. Tulpin, 242

Charting the Course in Accident Prevention—W. T. Rogers, 33

Check List and Status of EEI Standards and Specifications, 348

Chemists Vital in Power Station Operation—W. A. Lower, 374

Code for Pressure Piping, 379

Columbia System to Have Accident-Free Drive, 215

Commercial Activities
- The Case for Bimonthly Billing—R. B. Tulpin, 242
- The Permanence of Commercial Work—C. W. Kellogg, 157
- Saving Small Industry as Future Customers—H. M. Sawyer, 200
- Sell Today—Deliver Tomorrow—C. E. Greenwood, 47
- Utility Commercial Departments an Anchor for Private Enterprise—C. E. Greenwood, 9
- War-Time Functions of Commercial Sales Departments—H. G. Isley, 11

Committees
- See Specific Committee
- Personnel 1943-1944, 280

Conservation of Electricity
- Better Care—Less Repair—C. E. Greenwood, 365
- Conserve Critical Resources—William A. Lyons, 356
- Electric Industry Goes All-Out in Promoting Conservation Program, 289

Conserve Critical Resources—William A. Lyons, 356

Construction of 26.4 Kv Transmission Line on Narrow Right-of-Way, 17

Coordination of Automatic Air Brake Sectionalizing Switches with Terminal Oil Circuit Breakers, 19

Cost of Living Index Misleading as to Electricity-Situation to be Remedied, 316

Customer Relations
- Effective Tie-In of Employees and Customer Relations Programs—Geo. M. Carnes, 371
- Holding Customer Good-Will in the War Emergency—R. B. Roberts, Jr., 233
- Utility Sales Floors Become Wartime Service Centers, 310
- War and Customer Service—P. S. Arkwright, 68

Customer Service Meetings, 121

Customers' Relations, Commercial Accounting and Collections Committee, Personnel, 1943-1944, 280

D

Depreciation Committee, Personnel 1943-1944, 280
Distribution Transformer Modifications, 19
Domestic Electric Service in 1942—W. M. Carpenter, 73
Dry Cell Battery for Tripping Current, 32

E

Economic Laws Govern TVA as Well as Others, 132
Economics of War Power Supply—C. W. Kellogg, 65
Edison Electric Institute Annual Meeting
  General Story, 189
  President's Address, 190
Thomas A. Edison's Influence on the United States Navy—Rear Admiral H. G. Bowen, U.S.N., 133
Effect of War Taxes Upon Utility Regulation—R. W. Peterson, 6
Effective Tie-In of Employees and Customer Relations Programs—Geo. M. Carnes, 371
Effects of Maturity on the Electric Industry—C. W. Kellogg, 293
Electric Capacity 24% Above Demand—Thomas P. Swift, 370
Electric Industry Goes All-Out in Promoting Conservation Program, 289
Electric Light and Power Industry in 1942, 1
Electric Metering Methods to Reduce Manpower, Materials and Costs—A. L. Carvill, 25
Electric Power Supply
  Economics of War Power Supply—C. W. Kellogg, 65
  Electric Capacity 24% Above Demand—Thomas P. Swift, 370
  Electric Light & Power Industry in 1942, 1
  Key to the Apparent Paradox in Electric Power Supply for War—C. W. Kellogg, 147
Electric Utilities Cooperating Effectively in National Nutrition Program, Report Shows, 138
Electric Water Heating Committee, Personnel, 1943-1944, 282
Electric Water System Care and Maintenance Booklet, 156
Electrical Affairs in Canada—W. C. Mainwaring, 219
Electrical Equipment Committee Meeting—R. T. Henry, 186, 345
Electrical Equipment Committee
  Cleveland meeting, 345
  Personnel 1943-1944, 283
Electrical Renaissance at the Grass Roots—Ashton B. Collins, 265
Electricity on the Farm and Its Relation to the National Food Production Program—C. L. Osterberger, 23
Electronics and Post-War Industry—A. C. Montieth, 337
Elevator Maintenance Bulletins, 84
Essential Accident Prevention Measures in the Design and Maintenance of Substations—H. S. Fitch, 327
Except for Aluminum, Electricity Is Not Mentioned in Study of Migration of Industry, 336
Experience Points the Way in Accident Prevention—D. C. Stewart, 137

F

Farm Utilization Committee, Personnel 1943-1944, 282
Farmer and His Electricity—Grover C. Neff, 227
Fatal Accidents a Challenge to the Industry—D. C. Stewart, 367
Federal Power Commission Trial Examiner Rules Out Rate Comparisons as Measure of Reasonableness, 101
Fiction of Public Ownership—Isabel Paterson, 235
Fifteen Unbroken Months! 152
Financial and Operating Statistics of REA, 377

G

Gas, Light Bills on Bi-Monthly Basis Planned, 244
General Commercial Committee, Personnel 1943-1944, 281
Graphic Performance Analyzer for Distribution Voltage Regulators, 16

H

Handling Break-Away Barrage Balloons, 315
Holding Customer Good-Will in the War Emergency—R. B. Roberts, Jr., 233
Home Service Committee, Personnel 1943-1944, 282
How a Utility Operates a Farm Electric Equipment Exchange Plan—Morris H. Lloyd, 248
How Georgia Power Company Is Expanding Service Program to Meet Wartime Needs—John H. Stevens, 90
How Service Was Made Available to War Production Plant with Minimum Use of Critical Material, 15
How Should We Advertise in 1943?—Kenneth L. Ede, 69
Hydraulic Power Committee, Personnel 1943-1944, 284

I

I am Capital—Benjamin DeCasseres, 292
I Am Private Enterprise—Benjamin DeCasseres, 360
Impulse Voltage and 60-Cycle Life Tests of 22-Kv Cables and Cable Terminals—W. P. Cook, 273
In the Public Service, 152
Increasing Copper Capacity at Low Cost, 18
Industrial Power and Heating Committee, Personnel 1943-1944, 282
Industry's Need of Engineering Uniformity—C. A. Powel, 213
Institute Executives Ask for Adequate Time to Review NARUC Depreciation Committee Report, 277
Insurance Committee, Personnel 1943-1944, 285
Inter-Industry Cooperation in Electrifying Post-War Housing—Irving W. Clark, 245
Investment Features of Municipal Utility Bonds Compared With Private Company Issues—Kinsey M. Robinson, 361

J

The Job That Has Been Done and Will be Done—C. E. Michel, 165
Joint Meeting of Engineering Committees
  Program, 153

K

Key to the Apparent Paradox in Electric Power Supply for War—C. W. Kellogg, 147
Kilovar Supply on Public Service Electric and Gas Company System—H. K. Sels, 329

L

Lighting
  Value of Good Lighting in War Production, 49
  Wartime Lighting and Safety—Edwin Vennard, 93
Lighting Committee, Personnel 1943-1944, 282
Lively Interest in Current Problems Marks Meeting of Transmission and Distribution Committee—E. V. Sayles, 79
Looking Back to View the Future—Frank Sanford, 126

M

Manpower Shortage
  Never a Dull Moment with Lengthened Schedules and Reduced Manpower—K. E. Boyle, 297
Meetings, *See* Specific Meeting
Meetings of EEI Engineering Committees in October, 320
Meter and Service Committee, Personnel 1943-1944, 284
Meters and Metering
  Electric Metering Methods to Reduce Manpower, Materials and Costs—A. L. Carvill, 25
  Report Shows Both Customer and Company Approval of Meter Reading and Billing Changes, 129

More Edison Medal Awards for Resuscitation—Mae B. Woods, 85
More Than Half of America's Families Have Mechanical Refrigeration, 29

N

'Never a Dull Moment with Lengthened Schedules and Reduced Manpower—K. E. Boyle, 297
New American Standards for Transformers, Regulators and Reactors, 222
New Committees on Piping Codes and Standards, 286
New EEI Publications
A-C Network Operations 1938-1940, 135
Cable Operation, 1941, 376
Furnace Tube Corrosion, 140
Turbines, Condensers, Feed-Water Heaters, 1942, 376
Nightmare for Hitler and Company, 101

O

Obituaries
Thomas Bragg, 379
L. L. Elden, 379
John G. Learned, 379
Harry A. Snow, 184
Nicholas Stahl, 64
Samuel H. Taylor, 379
E. A. White, 29
John E. Zimmerman, 216
Oklahoma Utilities Association Announces Officers for 1943, 31
Our Invisible Men, 241
Outdoor Meter Installations, 19
Ontario Hydro Turns to Ottawa River for Power, 128

P

Pennsylvania Electric Association Meeting, 348
Permanence of Commercial Work—C. W. Kellogg, 157
Personals, 27, 63, 91, 122, 155, 187, 224, 255, 287, 319, 351, 382
Phooey!, 370
Physical Examination of New Employees to Meet War-Time Conditions—H. B. Bardwell, 225
Planning to Be Done—H. C. Thuerk, 197
Plant Accounting and Records Committee, Personnel 1943-1944, 281
Pole Top Resuscitation Instruction Manual Ready for Publication—W. R. Smith, 300
Postwar Activities (see also Postwar Planning)
Aims and Aspirations of N.A.M.—Noel Sargent, 207
The Postwar Demand for Power—M. L. Sindeband, 295
The Progressive Certainty of the Future—F. McQuillin, 176
Where Do We Go From Here?—S. P. Vecker
Postwar Demand for Power—M. L. Sindeband, 295
Postwar Loads from a Sales Viewpoint—J. F. Gaskill, 321
Postwar Planning and the Electric Industry—Edwin Vennard, 159
Postwar Planning, Service Facilities
The Job That Has Been Done and Will Be Done—C. E. Michel, 165
Looking Back to View the Future—Frank Sanford, 126
Planning to Be Done, H. C. Thuerk, 197
Postwar Planning and the Electric Industry—Edwin Vennard, 159
Power Markets Through New Applications—J. F. Gaskill, 179
Prime Movers Committee
New York meeting, 8
Personnel 1943-1944, 284
Profit Motive—J. S. Hecht, 249
Program for the EEI-AEIC Investigation of Graphitization of Plain-Carbon and Carbon-Molybdenum Steel Piping, 308
Progressive Certainty of the Future—F. McQuillin, 176
Public Relations
Electrical Renaissance at the Grass Roots—Ashton B. Collins, 265
Public Service War Bond Sales Nearly Triple Goal, 325
Public Utilities Supply Two-Thirds of All Industrial Power, 291
Public Utility Valuation, 279
Purchasing, Stores and Transportation Committee, Personnel 1943-1944, 281

R

Radiosondes and High Voltage Lines—a Warning, 106
Rate Research Committee, Personnel 1943-1944, 285
Reducing Accidents—W. F. Nimmo, 217
Recording Sub-Standard Installations, 32
Refrigeration, Electric
More Than Half of America's Families Have Mechanical Refrigeration, 29
Regulation, Utility
Effect of War Taxes Upon Utility Regulation—R. W. Peterson, 6
Report Shows Both Customer and Company Approval of Meter Reading and Billing Changes, 129
Reports of Joint Subcommittee on Development and Research, 62
Research on Graphitization of Piping Is Under Way—Sabin Crocker and Alex. D. Bailey, 307
Resolution on the Late Nicholas Stahl Adopted by T. and D. Committee, 84
Review and Classification of 121 Fatal Accidents Reported During 1942 Within the Electric Light and Power Industry, 368
Review and Classification of 121 Fatal Accidents Which Occurred in 1941 in the Electric Light and Power Industry, 136
Review of the Operation and Inductive Coordination of Telegraph Systems—A. L. St. Cyr and J. R. North, 107
Rotating Electrical Machinery Standard Is Revised, 264
Rubber Situation as it Affects Protective Devices for Linemen—T. R. Claffy, 326
Rukeyser Praises Utilities' Effort in War—M. S. Rukeyser, 272
Rural Electrification
Adequate Wiring for Post-War Farm Electrification—H. J. Gallagher, 309
Application Engineering—A Key to Farm Production!—George W. Kable, 269
"As Our Territory Prospers So Shall We"—Roy W. Godley, 119
Electricity on the Farm and Its Relation to the National Food Production Program—C. L. Osterberger, 23
The Farmer and His Electricity—Grover C. Neff, 227
How a Utility Operates a Farm Electric Equipment Exchange Plan—Morris H. Lloyd, 248
Some Aspects of Rural Electrification in New York State—R. G. Harvey, 341
Utilization Engineering for Large Agricultural Customers—E. G. Stahl, 20

S

Safety Merit Award Inaugurated, 139
Salvage
Utilities Work for Victory—C. E. Greenwood, 103
Salvaged Fir Crossarms for Line Material Devices, 18
San Diego Company Cited for Wartime Service, 268
Saving Small Industry As Future Customers—H. M. Sawyer, 200
Sell Today—Deliver Tomorrow—C. E. Greenwood, 47
Seven More Companies Win EEI Safety Merit Award, 312
Sight for Victory—H. P. J. Steinmetz, 182
Signal Corps Seeks to Purchase Amateur Radio Communication Equipment, 124
Socio-Economic Conditions and Intercity Variations of Electric Use—Henry G. Knaf, 36
Some Aspects of Rural Electrification in New York State—R. G. Harvey, 341
Some Features of Wood H-Frame Design for High-Voltage Line Structures—W. C. Schmidt, 113

Some Observations on Postwar Distribution Problems—C. E. Greenwood, 333
Some Wartime Revelations—W. C. Mullendore, 193
Southern Section, IAEI to Meet in New Orleans, 288
Special Reserves for Post-War Adjustments—J. H. Lobban & A. A. Cullman, 230
Standardization on 6.6 Ampere Lamps for Series Street Lighting, 19
Statement Before U. S. Senate Finance Committee on Revenue Act of 1943—C. W. Kellogg, 353
Statistical Committee, Personnel 1943-1944, 286
Suggestions for Air Raid Wardens, 82
System-Voltage Control in the War Emergency—A. E. Silver, 260

T

T. & D. War Problems Solved by Ingenuity Under Spur of Necessity, 13
Tax Exemption Threatens Free Enterprise—G. C. Neff, 324
Taxes
  Effect of War Taxes Upon Utility Regulation — R. W. Peterson, 6
  What a Group of Connecticut Business Men Are Doing About Taxes—Charles L. Campbell, 45
  Utilities' Problem of Taxes Growing—Thomas P. Swift, 102
  Tax Exemption Threatens Free Enterprise—G. C. Neff, 324
  Statement Before U. S. Senate Finance Committee on Revenue Act of 1943, 353
Tenth Annual Customer Service Meetings, 158
Test Case Showing Computation of Depreciation Under the Group Plan by the Asymptotic Method—Harold G. Avery, 75
These Rosy Dreams of the Future—William M. Carpenter, 257
Transmission and Distribution Committee
  Pittsburgh, 79
  Chicago, 221
  Cleveland, 346
  Personnel 1943-1944, 284
  Resolution Adopted on the late Nicholas Stahl, 84
Tripping Device on Time Switch for Blackouts, 14
Twenty-four Edison Electric Institute Awards for Resuscitation Made in 1942—Mae B. Woods, 52

U

Utilities Deliver 24 Million Lbs. of Copper for War Needs, 64
Utilities' Problem of Taxes Growing—Thomas P. Swift, 102
Utilities Radio Program, 288
Utilities Work for Victory—C. E. Greenwood, 103
Utility Accountants Hold Joint Meeting, 183
Utility Commercial Departments an Anchor for Private Enterprise—C. E. Greenwood, 9
Utility Credited for Initiating Successful Season in Resort Area, 276
Utility Sales Floors Become Wartime Service Centers, 310
Utilization Engineering for Large Agricultural Customers—E. G. Stahl, 20

V

Value of Good Lighting in War Production, 49
Victory Book Campaign, 31

W

War and Customer Service—P. S. Arkwright, 68
War Bonds for Economic Stability—Dr. Robert J. McFall, 169
War Materials Now Constitute 64% of Industrial Production, 146
War-Time Expediencies
  T. & D. War Problems Solved by Ingenuity Under Spur of Necessity, 13
War-Time Functions of Commercial Sales Departments—H. G. Isley, 11
Wartime Lighting and Safety—Edwin Vennard, 93
Well, Folks, It's Been a Long Hard Winter, 151
We're Thankful for Large Corporations, 152
What a Group of Connecticut Business Men Are Doing About Taxes—Charles L. Campbell, 45
Where Do We Go From Here?—S. P. Vecker, 363
Winners in PUAA Advertising Contest, 216
Wiring Committee, Personnel 1943-1944, 283
Work of the Committee for Economic Development—Carroll L. Wilson, 203

Y

Your Stake in Heavy Apparatus Standardization—H. V. Erben, 211

Authors' Index

A

Arkwright, P. S.
War and Customer Service, 68
Avery, Harold G.
A Test Case Showing Computation of Depreciation Under the Group Plan by the Asymptotic Method, 75

B

Bailey, Alex. D. & Crocker, Sabin
Research on Graphitization of Piping Is Under Way, 307
Bardwell, H. B.
Physical Examination of New Employees to Meet War-Time Conditions, 225
Bowen, H. G., Rear Admiral, U.S.N.
Thomas A. Edison's Influence on the United States Navy, 133
Boyle, K. E.
Never a Dull Moment with Lengthened Schedules and Reduced Manpower, 297
Brown, Norman F.
Allocating Gross Revenue to Production, Transmission and Distribution Facilities, 57

C

Campbell, Charles L.
What a Group of Connecticut Business Men Are Doing About Taxes, 45
Carnes, Geo. M.
Effective Tie-In of Employees and Customer Relations Programs, 371
Carpenter, R. B.
Accounting Procedures Relating to War Facilities Covered by Necessity Certificates, 141
Carpenter, W. M.
Domestic Electric Service in 1942, 73
These Rosy Dreams of the Future, 257
Carvill, A. L.
Electric Metering Methods to Reduce Manpower, Materials and Costs, 25
Claffey, T. R.
The Rubber Situation as it Affects Protective Devices for Linemen, 326
Clark, Irving W.
Inter-Industry Cooperation in Electrifying Post-War Housing, 245
Collins, Ashton B.
Electrical Renaissance at the Grass Roots, 265
Cook, W. P.
